

UI Design and Prototyping Report

Personal Portfolio Website

1. Introduction

This portfolio site plan would be my personal portfolio, which displays various projects including school and personal projects. The site would have three navigation categories, home, Project and contact pages. I plan to design based on a single page application principle and as simple as possible.(take a look the layouts below)

2. Navigation Structure

There are 3 navigation links inside the navigation bar, each navigation will have specific content.

2.1 HOME

Home page is the primary page contains basic information about my profession.

2.2 PROJECTS

All projects are displayed in this sub page, specific description about each project and technology used to build the project will be presented.

2.3 CONTACT

My personal email and social medias are the ways to contact me
